

JERO HALILI

Software Developer

Angeles, Philippines • jerobusiness20@gmail.com • 09478073922 • Portfolio: jerohalili.is-a.dev

Full Stack & Automation Developer with 2.5+ years of experience specializing in web applications, SQL databases, and local AI workflows. Expert in utilizing Astro, React, Python, and n8n to optimize administrative operations, automate cross-channel data pipelines, and drive technical digital transformations.

SKILLS

Frontend: React, Next.js, Astro, TypeScript, JavaScript, Tailwind CSS, Flutter, Dart

Backend & APIs: Python, Node.js, Express, FastAPI, PHP

Database & Cloud/DevOps: PostgreSQL, MySQL, MongoDB, Supabase, AWS, Docker, Firebase, Git

AI Engineering & Automation: n8n, PyTorch, TensorFlow, RAG, Local LLMs, Stable Diffusion, spaCy

EXPERIENCE

Technobyte X Guest Unlimited Inc. | Social Media Marketing Automation Specialist Dec 2025 – Present

- Built an n8n + RAG marketing automation system, cutting content creation time by 70%.
- Engineered a human-in-the-loop pipeline ensuring 100% brand consistency across channels.
- Deployed self-hosted API automation workflows to streamline multi-step marketing operations.

PBSI Inc. | Database Administrator & Web Developer

March 2024 – December 2025

- Migrated 34 years of student archives (1992–2026) to a centralized, secure SQL database.
- Reduced data retrieval latency by 40% via schema optimization and indexing.
- Automated reporting pipelines, eliminating manual errors and saving 24 hours per month.

Freelance | Full-Stack Developer

March 2024 – June 2026

- Architected Sanity.io headless CMS setups, streamlining non-technical content editing.
- Eliminated client hosting costs completely by deploying optimized builds to GitHub Pages.
- Optimized Web Vitals and mobile usability to improve load speeds and client conversion rates.

EDUCATION & CERTIFICATIONS

Holy Angel University | Bachelor of Science in Computer Science (*Graduating Mar 2027*)

Certifications: AWS Cloud Foundations (Feb 2026) | Cisco Intro to Cybersecurity & JS Essentials 1 (2024) | freeCodeCamp Responsive Web Design (Sep 2024) | CompTIA ITF+ (Nov 2023)

PROJECTS

Moneta: Next.js, PostgreSQL (Neon), Tailwind CSS, Vercel

moneta-lovat.vercel.app

Engineered an open-source tax platform with a rule-based engine that identifies legal savings and expands tax literacy across the Philippines.

MonAmi: React, TypeScript, D3.js/Canvas, GitHub API

monami-one.vercel.app

Built an interactive network graph that processes and renders GitHub connections into a real-time visual map of developers, skills, and shared context.

PBSI Academic Platform: Astro, React, Tailwind CSS, HTML

pbsi1992.github.io

Developed a centralized academic platform to manage program admissions, student inquiries, and institutional outreach with real-world scalability.

Artist Portfolio (JKISINAMAL): Astro, Tailwind CSS, Sanity.io

jkisinamal.github.io

Architected a headless CMS portfolio, zeroing out hosting costs and accelerating speeds via asset caching.
